ASG5

Q2:

Make a client-server fortune telling package: (Using Python)

## Server.py

```
# Devin Hardy
# ASG5 Fortune Server file
#
import socket

# Create a socket object
s = socket.socket()

# Define the port on which you want to connect
port = 12345

# connect to the server on local computer
s.connect(('127.0.0.1', port))

# receive data from the server and decoding to get the string.
print (s.recv(1024).decode())
# close the connection
s.close()
```

## Client.py

```
# Devin Hardy
# ASG5 Fortune Server file
#
import socket

# Create a socket object
s = socket.socket()

# Define the port on which you want to connect
port = 12345

# connect to the server on local computer
s.connect(('127.0.0.1', port))

# receive data from the server and decoding to get the string.
print (s.recv(1024).decode())
# close the connection
s.close()
```
